khawajafaizan040@gmail.com | +92 316-4550067 | Lahore, Pakistan (Open to Remote / International Roles)

PROFESSIONAL SUMMARY

Senior Frontend Developer with ~5 years of experience building large-scale SaaS platforms, booking/scheduling systems, and real-time applications using React.js, Next.js, and modern JavaScript/TypeScript. Specialized in dynamic form engines, configurable workflow builders, multi-tenant admin panels, and real-time features (WebSockets, SSE, live video). Proven track record shipping 10+ production applications for UK and international clients, with strong experience collaborating across distributed, remote-first teams.

WORK EXPERIENCE

Frontend Developer → Senior Frontend Developer

Selteq Solutions | 2024 – Present

- Promoted to Senior Frontend Developer based on performance and ownership of multiple production products.
- Core frontend engineer across the Plexaar SaaS ecosystem (10+ interconnected apps): onboarding, scheduling, quotations, shift management, forms, and centralized auth.
- Built configurable workflow engines, dynamic form systems, and multi-tenant admin panels used by real businesses.
- Implemented real-time features across products: WebSockets, Server-Sent Events, Firebase, and LiveKit-based video consultations.
- Worked with cross-domain single sign-on (SSO), device fingerprinting, and secure session handling across multiple subdomain apps.
- Led performance optimization, code reviews, and reusable component architecture across projects.

Junior Frontend Developer

Hazelsoft | 2021 – 2023

- Developed responsive web applications with React.js, Redux, JavaScript, HTML/CSS, and SASS.
- Built reusable UI components, integrated REST APIs, and implemented Redux-based state management.
- Delivered kiosk-management and restaurant-booking admin platforms for international clients.

KEY PROJECTS

Calendex — Booking & Scheduling Platform (Selteq)

React.js, Redux Toolkit, Redux-Saga, DevExpress Scheduler, Socket.IO, LiveKit, Firebase, Google Maps, Chart.js

- Built a full-featured appointment scheduling platform with calendar views (day/week/month), drag-and-drop rescheduling, and staff/service management.
- Integrated LiveKit for in-app video consultations and Socket.IO for live booking updates and chat.
- Implemented payment card capture with validation, analytics dashboards (Chart.js), and location-based provider discovery via Google Maps/Leaflet.

Expert.net — Service Marketplace & Consultation Platform (Selteq)

Next.js, TypeScript, Redux, GraphQL, Stripe, next-auth, Socket.IO, LiveKit, next-i18next, PostHog

- Developed a customer-facing marketplace in Next.js + TypeScript with SSR for SEO-critical pages.
- Integrated Stripe for payments, next-auth for authentication, and multi-language support via i18n.
- Built real-time chat and video-consultation flows (Socket.IO + LiveKit) and product analytics with PostHog.

Onboarding — Onboarding & Business Collaboration Platform (Selteq)

React.js, Redux, Ant Design, REST APIs, WebSockets

- Built a configurable SaaS onboarding engine: multi-step flows, dynamic forms, conditional branching where user responses determine the next onboarding path.
- Developed a multi-tenant admin panel managing workflows, applicants, employee statuses, and B2B collaboration/verification flows.
- Implemented nested dynamic forms with document uploads, validations, and configurable question types.

GoQuote — Real-time Quotation & Negotiation Platform (Selteq)

React.js, Redux, SSE, Socket.IO, Firebase, Ant Design

- Built collaborative quotation creation/negotiation with instant sync via Server-Sent Events.
- Implemented dynamic pricing, taxes, custom calculations, interactive quote tables, and on-the-fly service creation.

Shift Management — Staff Rota & Scheduling System (Selteq)

React.js, Redux Toolkit, Ant Design, Material UI

- Developed shift planning, staff assignment, and schedule management interfaces with complex date/time handling.

Expert Admin — Marketplace Operations Panel (Selteq)

React.js, Redux Toolkit, dnd-kit, Google Charts, Google Maps, Jodit rich-text editor

- Built the operations panel for the Expert platform: content management with rich-text editing, drag-and-drop ordering, KPI dashboards, and geo-visualization.

Accounts & SSO — Centralized Auth Portal (Selteq)

React.js, Redux-Saga, cross-domain storage, FingerprintJS

- Contributed to a central login/accounts app providing cross-domain single sign-on across the product suite, with device fingerprinting and session security.

FormBiz — Dynamic Form Builder (Selteq)

React.js, Vite, Redux-Saga, signature canvas

- Built dynamic business-form rendering with e-signature capture and multi-environment deployment.

Expert Medical & London Laser — Clinic Booking Websites (Selteq, UK clients)

Next.js, React Hook Form, Socket.IO, Google Maps/Leaflet

- Delivered SEO-optimized Next.js websites for UK healthcare clients with appointment booking, live chat, and location services.

Unixfor — Kiosk Management System (Hazelsoft)

React.js, Redux, TanStack Table, Google Maps API

- Kiosk monitoring platform: advanced data tables (filtering/sorting/real-time data) and map-based machine status visualization.

FullRail — Restaurant Booking Admin Platform (Hazelsoft)

React.js, Redux, Material UI

- UK restaurant booking admin with a drag-and-drop, flow-based engine letting restaurants customize booking workflows.
